SUPERINTENDENT'S REPORT

To the School Board and Citizens of Swanzey:

I have the honor to submit my first report.

TEACHERS: The success of any school system depends primarily upon the teacher's ability to instruct pupils. Successful schools exist where good teaching is found although buildings may be inadequate, classes overcrowded, and equipment meager. The proper training of teachers has received a great deal of attention during the last few years in colleges and normal schools, and the professional requirements for entrance to teaching steadily raised in New Hampshire. A successful teacher not only must have an adequate background of knowledge of subject matter but also must have an intimate acquaintance of how to instruct pupils of different ages and various abilities.

Swanzey employs eleven full time teachers. Of this number, four teach in the Cutler School, two each in the Hopkins, Wilcox, and East Swanzey Schools, and one at Westport. There were two replacements in the teaching staff during last summer, namely, Barbara E. Carlsen of West Newbury, Massachusetts, a graduate of Keene Normal, 1938, replaced Anna E. Johnson at the Wilcox School. Dorothy M. Rivard of Manchester, New Hampshire, a graduate of Plymouth Normal, 1938, replaced Mrs. Mildred E. Weston at the Cutler School.

In addition to the eleven full-time teachers, it was found necessary to employ three part-time assistants in the Hopkins, Cutler, and Westport Schools. The services of these three assistant teachers, Mrs. Rose DuBois, Mrs. Catherine Oakman,

and Mrs. Dorothy Story, have been found very valuable in not only assisting in class instruction but in working with individual pupils. As there seems to be no indication that the number of pupils will decrease next year in any of these schools, it is recommended that provision be made in the budget to retain their services.

COURSE OF STUDY: Studies are now being made in the fields of handwriting, spelling, reading and arithmetic throughout the entire system. The results of the spelling test have revealed some lines of weakness and a renewed emphasis is now being given to these fundamental subjects.

During the past year a committee of teachers was engaged in studying both the arithmetic and geography text books, and in response to their recommendations, new geographies have been installed in grades three to seven inclusive.

HIGH SCHOOL EDUCATION: As Swanzey has no high school, all pupils desiring a high school education must secure it in other communities, the district bearing the expense of tuition. In September, the census figures indicated a total of 98 Swanzey pupils in attendance at Keene High School and two at Thayer High School in Winchester. The class enrollment at Keene was as follows: freshman 34, sophomore 26, junior 26 and senior 12. It may be expected that approximately forty pupils will enter the freshman year either at Keene or Winchester next fall. The tuition rate at Keene High School for next year has been set at $80, and a special article has been inserted in the warrant in order to make it possible for the district to authorize the school board to make a contract at this rate. This new rate, approximately twelve dollars higher than last year, with the expected increase in the number of pupils in the high school, necessitates a larger amount being appropriated in the budget for next year.

In conclusion, I wish to express my appreciation of the great deal of cooperation I have received from the School Board, the teaching staff, and the citizens of Swanzey.

Respectfully submitted,
CHARLES W. WALKER,
Superintendent of Schools.
